**CAA Member Discount:**  
New clients that sign up with KPA receive a 5% discount.

## Initial Consulting Services

<b>Initial Audit</b>	Initial facility audit to identify hazards. Provide an assessment of potential safety and environmental risks.
<b>Chemical List Creation</b>	During an initial walkthrough, develop a list of all chemicals and hazardous substances in the facility.
<b>Program Development</b>	Develop and review Hazard Communication, Emergency Response, RPP and IIPP written programs.
<b>Evacuation Map Creation</b>	After facility layout review, consultant will develop an evacuation map.
<b>Yellow Box Installation</b>	The Yellow Box provides easy to access physical storage of environmental and safety compliance documentation.

## Ongoing Consulting Services

Consulting visits are 1 hour in duration and may be scheduled 1, 2 or 4 times per year.

<b>Facility Inspection</b>	Periodic facility inspections to identify and help resolve new or recurring issues.
----------------------------	---

<b>Management Meeting</b>	Review audit findings, EHS reports, and discuss priorities at location level and regional/group level.
---------------------------	--

<b>Emergency Support</b>	On-call support to help address unforeseen issues and incidents.
--------------------------	--

Clients may select from services offered below on a rotating basis.

<b>Respiratory Training</b>	On-site respiratory protection training.
-----------------------------	--

<b>Fit Testing</b>	Ensure proper fit of respiratory protection equipment. Online Medical Evaluations available for an additional fee.
--------------------	--

<b>PPE Hazard Assessment</b>	Hazard assessment to determine necessary PPE for exposed employees.
------------------------------	---

<b>Yellow Box Audit and Organization</b>	Periodic review of Yellow Box contents.
--	---

<b>Evacuation Map Update</b>	Periodic update to evacuation map.
------------------------------	------------------------------------

<b>Written Program Update</b>	Review and update HazCom, Emergency Response, RPP and IIPP Programs.
-------------------------------	--

<b>Supplemental Training</b>	Additional on-site training based on client requirements.
------------------------------	---

<b>Chemical List Update</b>	Review chemical inventory and update list as needed.
-----------------------------	--

## Software

<b>Corrective and Preventive Actions</b>	Capture issues, assign owners to corrective actions, and track progress through to completion.
<b>Learning Management: Online Training</b>	Online safety and compliance training covering critical OSHA-required topics.
<b>SDS Management Software</b>	Online Safety Data Sheets (SDS) repository for quick and easy access.
<b>Document Management</b>	Store and maintain location-specific regulatory compliance programs, company-wide policies and other EHS compliance policies and documents.
<b>Audits and Inspections</b>	Configurable or "out-of-the-box" inspection and audit forms. Track issues and assign resolution owners.
<b>Mobile Application</b>	Conduct inspections, assign and complete training, record incidents and more through the KPA's Vera Suite Mobile App.

KPA solutions help clients identify, remedy, and prevent workplace safety and compliance problems across their entire enterprise. The combination of KPA's software, consulting, and award-winning training helps organizations minimize overall risk so they can focus on what's important—their core business.
